General instruction of the base

Lavrio is an excellent starting point for sailing routes in the Cyclades and Aegean Sea. Within two hours you will reach the first island. Transfer from Athens International Airport takes only 30-40 minutes.

Lavrio is a charming small town and very convenient for yacht charter. Everything can be found within walking distance: taverns, restaurants, bakery, cafes, bars, super markets, ATM and small shops. Our base is located in Olympic Marine, just 2.8 km distance from the center of Lavrio. Clients can find coffee shop, restaurant (during winter time it is closed and operate upon request, but from 15 of March the restaurant works normally), ATM, mini market, marine shop and car rental.

About ten minutes by car, south of Lavrio, you will find the ancient ruins of the Temple of Poseidon at the Cape of Sounio. The view and sunset is fantastic from this site, you do not want to miss it!
